

# Disinfection stand NoVir

The epidemic Covid-19 affects lives of all of us every day. Hand disinfection is important for better protection of us and others. As we are not indifferent to our health and the health of others, we present the **CONTACTLESS DISINFECTION STAND NoVir**. Which is made on the basis of **Rockwell Automation®** technology.

## Safe

Children cannot be injured during use, the stand is absolutely safe.

## Easy to service

Refill hole on the front wall of the stand, extremely easy service.

## Economical

The level of Anticovid is monitored by a level meter, which signals the need to add disinfection.

## Contactless

Fully automatic, spraying of anticovid emulsion by using two nozzles controlled by optical sensors over the entire surface of the both palm part.

## Antivandal

Made of stainless steel, resistant to external influences and damage attempts.

## Ecological

The remaining emulsion remains inside the rack, the drawer inside the disinfection chamber. Electric and battery power supply.

## Design

Individualized design at the customer's request. Space for advertising.

# ControlTech

## Maximum employee safety

- Possibility to allow entry to selected areas only if a disinfection stand will be used (connection of the disinfection stand with the entrance door).
- Suitable for areas requiring above-standard hygiene requirements or places with a high concentration of people such as assembly lines, conference rooms, catering facilities, research laboratories, etc.
- Suitable for all facilities for elderly ones and patients suffering from more serious diseases.

---

## Benefits:

- Up to 5,000 doses per fill.
- Call to refill.
- Filling without the need access to the disinfectant.
- Access to the disinfectant secured by a lock.
- Suitable for Anticovid disinfection.
- Possibility of connection to building management - access control.
- Installation on a wall or on a pedestal.

## Design:

- Material: brushed stainless steel
- Dimensions: 71 x 35 x 41 cm
- Weight: 25kg
- Tank capacity: 5L
- Power supply: 220V, battery
- Spraying with 2 nozzles
- Non-contact trigger sensor
- Automatic dispenser
- Design at the customer's request according to the swatch
